About the 9 meter Energy Pyramid

Channel Message from Horus at 16:25h, 5.9.1999

"The great Energy Pyramid changes everything. It has initiated a signal, which will go around the whole earth in approximately 8 months. Every being is confronted by it. It's a kind of feedback signal from a high developed spirit, which will help to orient. It's an orientation, an interface between mankind, technology and nature.

You will have to think about your philosophy to get a new attitude towards life. This is valid for all. The sooner you are ready, the easier it becomes. Every person buying a small model supports the great project and use the creative impulses of the 9 meter model.

The great Energy Pyramid is a sign of a precisely directed spirit. This energy comes out of the outer part of the pyramid (Yin). Of it also contains Yang, the male element, it's the inner part. The inner pyramid is a cup which exudes the energy of the earth.

What you feel as negative energy, what obstructs you for a few months, is actually only an obstruction of your new feelings by forces and beings that are now unable to understand the new signal. They don't succeed to find a new orientation. They are annoyed about themselves.

However, the old rules are no longer valid, but it was set up a new one!

People must learn to listen inside themselves and there they will hear the new signal. Tell the people, they should be aware and trust themselves.

The new orientation is already in the walk for some years. But the signal of the great pyramid was of crucial importance, to set a new and unique impulse in the confusion of opinions, that pulls much attention on itself.

Enjoy what is happening here. If you don't touch the essence of being, it won't talk to you. If you succeed happiness will be your price. The Energy Pyramids are keys to the origin. You can inspire it in this life, by the use of the Energy Pyramids."

The 4 New Commandments

Purity of the soul is the 1. commandment

Love to the next is the 2. commandment

Mercy with the evil is the 3. commandment

Righteousness on Earth and in heaven is the 4. commandment

Righteousness means that we take part at the creation of new laws and legal standards, because at the moment we are ruled by legal standards that created others before us which concerns the contact of the people among each other.

Horus: '*Life on Earth is a tender bloom of creation*'

"It eternally changes. We planned it in large periods of time. Life here on Earth strives for thoroughness. In order to realize this goal, patience is needed.

Your concern is to preserve the beauty of creation. This cannot succeed as long as fear abases you. Recognize the meaning of your own feelings! The purity of the soul is to be caused only through your own spirit.

Purity of the spirit needs enough energy in order to be able to realize the ideals that a human being carries in himself. Only with the energy that comes from your own center, the source of strength can be activated which can make life on Earth livable. You deliver the energy that preserves the Earth and which lets you live here.

Recognize the peculiarity of my message! Until now, thriving and undoing was laid into a God's hand. Now I say that you are the source!"
